Shade structure project:

- In 2019, board approved a shade project through the PAC, 2020 happened, so it fell of the radar
- Spoke to treasurer at HSD and said just send the information w new date/tracker – would likely be approved since it had already been approved.
- What was approved was a shade structure: 10x12 (that's not huge) the one at SMS is 30 x 30
- The 12x12 was 13,000 in 2019
- SRSS can do material only- would then bring to 10,000 or less – Timing is everything, concrete in fall, timber frame in spring- if time out so if in fall they do the timber frame in spring, following fall do the concrete-
- Marge will send Natalie the Grant info (Nat will share with the group when available).

Vote: all in favor of changing the constitution to not have monthly meetings, but as needed – all in favor- cote carried and will change to “AS needed” in constitution.
